Session Four: ASP.NET Controls

A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away.

Antoine de Saint-Exupéry, French writer and aviator (1900 – 1944)

In this session you'll work with the different controls ASP.NET has to offer in greater depth and gain an understanding of what they can do.

You'll also learn some of the best practices for naming controls and structuring your pages.

Session Objectives

By the end of this session you will be able to:

- Name controls correctly
- Use button controls
- Use label and literal controls
- Use text boxes
- Use check boxes
- Use radio buttons
- Use drop down lists
- Use the RequiredFieldValidator control
- Use other validation controls
- Use common properties
